Democratic Manifesto for peace, freedom and for our new Europe!

♥ Democrats and peace fighters throughout Europe, unite! ♥

A. Viral citizens' revolt online: After the Corona top-down lockdown, we convinced citizens infect all of Europe, incl. "Brussels", Moscow and Kyiv, with our democracy and peace virus* on our-new-europe.eu, and demand, millions of times over, a peaceful, diverse, democratic Europe in 51 European countries - with mature, free citizens!

B. Takeover of power: We, millions of ever combat-ready citizens, create our new Europe – by referendum:

- 1 We only elect parliamentarians who are prepared to realise our new Europe together with us without delay and to invite all countries of Europe, incl. Russia and Ukraine, to our 1st pan-European referendum!
- 2 In this referendum we determine the role of our country in Europe: politically integrated or voluntarily associated!
- 3 We decide all important questions in our new Europe by means of referendums, in particular concerning war and peace, the European constitution, new member countries, refugees, the euro and EU taxes, Corona and climate change!

C. Lead the way! - Choose your Europe now*! - Multiply* your vote with ≥ 2 * friends! - Launch a viral* campaign for our new Europe in your country - on www.our-new-europe.eu! - We can do this! - Together! – Our peace project! - Now!

**Model of exponential growth (Corona unchecked): after 10 days 1,000, after 20 days 1 million votes for our new Europe – etc.!*
